FY23-25 Community Children's Services Fund Application Process

Funding Priorities & Outcomes

Announced at December 14, 2021 Community Meeting

Fy23-25 CCSF Funding Priorities

Early Childhood (Birth to Age 5 Only)

Increase social emotional knowledge, tools, and resources

Increase access to community resources, referrals, and support

Increase behavioral health prevention and early intervention

Children and Youth (Birth to Age 18)

Increase behavioral health prevention and early intervention services

Increase use of family systems' approaches (provide holistic family services that not only address the behavioral health needs of the child, but also of their parents and caregivers)

Respond to children & youths' experiences of trauma & violence

Respond to the increase in children & youths' mental health needs related to the COVID-19 pandemic

Community Children's Services Fund Outcomes

Young children (birth to age 5) are socially & emotionally healthy and ready for kindergarten

Children & youth experience mental wellbeing as a result of high-quality prevention programs

Children & youth with mental health and/or substance use conditions initiate and sustain healthy behaviors

Children & youths' experiences of trauma & violence are addressed and reduced

Disparities in behavioral health equity and racial justice for children and youth who are Black, Indigenous, and People of Color are addressed and reduced
